

Redi-Pave™

Strength On Demand ① ② ③ Day

Place it today. Drive on it tomorrow.

Redi-Pave from CBM puts pavements into service fast. Whether you need pavement “REDI” to go in 1, 2 or 3 days, our family of ConcreteSolutions Products delivers for you. Place your pavement today—drive on it tomorrow.

APPLICATIONS

- Loading docks
- Parking lots
- Drive-thru lanes
- Machine pads
- Driveways
- Service roads

Walkways can be reopened quickly to allow pedestrians access to stores while reducing safety liability. Sidewalks and pavements can be removed, replaced and open for traffic in 1, 2 or 3 days.

Open your pavement to traffic in 1 day, 2 days or 3 days.

Be ready with Redi-Pave.

HOW IT WORKS

Redi-Pave combines a proprietary blend of cementitious materials with exclusive admixtures to create a ConcreteSolutions Product that gives you working time and high-early strength. The mix also uses a low water/cement ratio and air entrainment to produce long-lasting, durable concrete.

Redi-Pave is designed for pavements that need to be opened to traffic fast. It reaches 25 MPa in 1, 2 or 3 days depending on your needs. For special high-performance applications, Redi-Pave can be specifically designed to meet 20 MPa in 4-5 hours allowing for same day operation. Contact your sales representative for further information.

Redi-Pave performs well in hot and cold weather when placed according to CSA A23.1-14, 7.1.1 and 7.1.2 requirements for hot and cold weather concrete placements.

BENEFITS:

- **Fast, faster, fastest.** Place new concrete or make repairs in a day or over the weekend. You choose the Redi-Pave mix that matches the demands of your project: Redi-Pave 1, 2 or 3 days.
- **Less downtime.** Owners plan repairs around business schedules and minimize the costs associated with business disruption.
- **Easy to place.** Redi-Pave mixes provide a higher slump and sufficient working time to ease placement.
- **Lasting durability.** Redi-Pave's unique formula delivers long-term strength for partial and full-depth repairs.

It's as easy as 1, 2 or 3!

Redi-Pave avoids costly traffic congestion with pavement that's ready in up to 3 days.

Redi-Pave makes dollars and sense for owners who need quick reopening to walkways.
