Your Guide to Quality Customer Service

Our goal is to provide quality products, delivered on time and in a courteous manner while allowing flexibility to you, our valued customer.

Ordering Guidelines

CBM is committed to providing **QUALITY** and **SERVICE** on all Ready Mixed Concrete orders.

We believe that the ability of our customers to effectively schedule concrete orders is critical to on-time delivery. In order to serve our customers better we have created a set of **ORDERING GUIDELINES**.

By issuing these guidelines, we will endeavor to meet your service expectations by making the most effective use of our people and equipment.

- **ADVANCE NOTICE**

In order to provide the best possible service, we encourage customers to place orders by 12:00 noon the day before the concrete is required.

- **QUANTITY + RATE**

When you are placing an order, we must know the quantity of concrete that will be used on a particular pour, and the required pour rate in cubic metres per hour.

- All first-round orders must be placed as **CONFIRMED ORDERS**.

- **ON CALL ORDERS**

Will be scheduled when confirmed and as the existing workload permits.

- **RADIO ORDERS**

We discourage orders over the radio or to sales staff. If this is necessary we ask that the order be confirmed by telephone on the same day as the order is placed. (Balance orders will be accepted over the radio).

- **CANCELLATION OF ORDERS**

Will only be possible if the truck is not yet loaded.

- **KEEP US INFORMED**

Prompt notification to dispatch is necessary if there are changes or delays to your original order.

Our Commitment

- We will always endeavor to be on the job at the scheduled time.
- Once a pour is started, our dispatchers are committed to keeping the customer supplied with concrete until the original order is finished. A balance to the original order will be shipped in a timely fashion. Additional metres will be supplied as scheduling permits.
- All orders will be taken only by the Plant Manager or Dispatcher who will do everything possible to work the order in at an acceptable time.
- Delivering a quality product with exceptional service is our daily goal.

Dispatch Hours

- Hours for ordering concrete are 7 am to 5 pm Monday to Friday.
- Orders taken before 7 am and after 5 pm will be scheduled as truck availability permits.

Just a Reminder

- Proper site preparation and organization are essential to Quality Service.
- It is the customers responsibility to provide qualified flagmen and bucket personnel.
- Excessive concrete returns are a hindrance to providing our customers with good service.
